

No Appetite

"I could not eat anything had no strength, no appetite, pimples and sores came out. I then began to take Hood's Sarsaparilla, and my skin cleared up, my appetite returned, strength came back, and I was soon enjoying the best of health. Three hearty meals find me equal to them every day. I work hard and sleep well."—Wm. Semple, Christopher, Ill.

It is by purifying the blood, strengthening the nerves and building up the system that Hood's Sarsaparilla restores the appetite and makes sleep sound and refreshing in so many cases. Get it today in the usual liquid form or in the tablets called **Sarsanals**.—Advertisement.

Advices from Durant's Neck Tell of Mrs. Bazemore's Trying Ordeal, and Her Condition at Present.

Durant's Neck, N. C.—Mrs. Emma Bazemore, of this place, says: "Words fail to express my appreciation and gratitude for the benefit I received from Cardui, the woman's tonic. I suffered agonies from womanly troubles. I tried different doctors, but they didn't help. The last one I went to said I needed an operation, so I agreed to it, and bore those terrible pains. Now I am the picture of health, weighing 120 pounds. Before I started the treatment I could not do any housework. Now I can do my work, and I feel so much better."

White Man Badly Hurt in Row With Negroes This Morning.

Following a brawl with several negroes in the house at 330 North Eighteenth Street this morning about 1:20 o'clock, Leftwich Richardson, a young white man, was hurled bodily from a second story window into the street. He was badly hurt, and his injuries were so severe that he was taken to the City Hospital by the city ambulance.

Four officers from the First Police Station were dispatched to the scene when the desk sergeant was apprised of the row—Sergeant Sherrill and Officers Pollock, Linton and Warriner. The policemen surrounded the house, cutting off the avenues of escape, and arrested four people who were found in various parts of the building.

Williams Banks, Luther Williams and four other negroes were taken, all protesting their innocence, to the City Police Station. Leftwich Richardson, a twenty-four years old, white woman, who accompanied her husband, was also taken into custody by the officers as a suspicious character.

According to the story picked up by the police, Richardson went to the house in company with the Nolte woman, encountered the party of drinking negroes, became embroiled in a row with them, and was finally pitched out of the window on his head. His companion seemed dazed and bewildered, and was taken to the City Hospital. It was impossible to determine the extent of his injuries.

After a cursory examination on the ground, Ambulance Surgeon H. G. Hawkins rushed Richardson to the City Hospital. There the physicians worked over him for hours finding dangerous wounds about the scalp and ugly bruises. It was impossible to determine the extent of his injuries.

Norfolk Man Charged With Shanghaing Two White Youths.

(Special to The Times-Dispatch.)
Norfolk, Va., February 6.—Thomas Walsh, a shipping agent of Norfolk, was arrested to-day on a warrant charging him with shanghaing Elbert Cochran and Walter McGirt, white youths, aboard the steamship Dortmund, aboard which they were taken to Hamburg. Walsh was arraigned before Percy S. Stephenson, United States commissioner, who committed him to jail in default of \$10,000 bond.

Elbert Cochran, who claims his father was a bank president in Pittsburgh, Pa., and Walter McGirt, son of a wealthy North Carolina farmer, arrived here yesterday morning from Philadelphia in the custody of two deputy marshals. They had landed from the steamship Abyssinia at Philadelphia Wednesday.

After they had told a shipping commissioner their story of having been shanghaied here, they were sent to Norfolk to identify the man who shipped them aboard the Dortmund, which has been held at anchor in the harbor since their arrival here. Cochran swore out a warrant for the arrest of Walsh, who was found in West Main Street by Robert Groner, deputy marshal. Walsh was taken before Commissioner Stephenson and arraigned.

It is stated, adults having shipped the youths, but denies that they were placed aboard the Dortmund unlawfully. Walsh, Cochran and McGirt were taken to the city jail this morning, and will remain there until to-morrow morning, when a preliminary hearing will be conducted by Commissioner Stephenson.

COAST-TO-COAST HIGHWAY

Convention to Boost Movement Will Be Held in Asheville on February 12.

(Special to The Times-Dispatch.)
Asheville, N. C., February 6.—Governor Locke Craig to-day issued a request to the Governors of the Southern States asking that they appoint delegates to the convention of the Southern Highway Association, which is to be held in this city February 12. The convention has been called for the purpose of perfecting plans for the construction of a highway from the Atlantic to the Pacific Coast, far enough south to permit all the year around travel. It is proposed to make it available for motorists, who are now unable to use the roads situated farther north during the winter months. It is said that a committee will be appointed to ask Congress to make an appropriation of \$25,000,000 to aid in the work of constructing the highway.

The promoters of the movement plan to interest all good roads associations in Southern and Western States in the project, and if the road is constructed as planned, numerous highways will connect with it, affording side trips for automobilists to various Southern and Western cities not touched by the coast-to-coast route. The first step toward securing the co-operation of State Legislatures was taken at Raleigh a few days ago, when the North Carolina State Senate and Legislature adopted a resolution of duty to Governor Craig appoint delegates from this State to the coming meeting.

It is planned to connect Los Angeles or San Diego, Cal. with Baltimore or New York, and the Baltimore probably will be named as the Eastern terminus.

INJUNCTION IS GRANTED.

Firm Restrained From Selling First Mortgage Bonds of Bankrupt Concern.
Norfolk, Va., February 6.—Federal Judge Waddill to-day granted a temporary injunction in the Norfolk Fisheries Corporation bankruptcy litigation restraining F. M. Smith and W. H. Gelshoben, 109 William Street, New York, trading as H. J. Baker & Bro., from selling or otherwise disposing of \$100,000 in first mortgage bonds of the bankrupt concern held by them as collateral security on notes alleged to have been made and given by the bankrupt. The question of a permanent injunction is to be heard February 12.

In his argument for a permanent injunction, Clarence J. Shearn declared the present contract would "only squander the city's funds" and cause the people of New York to lose at least \$500,000. Attorneys representing the Public Service Commission and the three railroad companies which seek to unite with the city in the construction of the subway, opposed the injunction. They pointed out the ease with which the city could gain control of the whole system by purchase, and declared that eventually the proposed scheme of operation would bring an annual profit to the taxpayer.

BOMB IS EMPLOYED AS AID TO STRIKERS IN NEW YORK

New York, February 6.—A mobbed demonstration in the interest of garment makers on strike from shops in the Williamsburg section of Brooklyn employed a bomb as a weapon in their warfare to-day. Edward Hartman and John Hopp, two special officers guarding a shop affected by the strike, were seriously hurt and a scarp from the infernal machine. The explosion wrecked the front of the building and precipitated a panic among the operatives.

Six policemen were beaten by the mob. Reserves dispersed the strikers after a struggle in which five men and two girls were injured. A thousand operatives returned to work in a number of shops throughout the city to-day, after remaining on strike for more than a month. MARTIAL LAW PROCLAIMED IN REPUBLIC OF SALVADOR

Washington, February 6.—Martial law has been proclaimed throughout Salvador, President Araujo lies in a dangerous condition. The result of an attack yesterday by five would-be assassins took effect, but surgeons fear the outcome of a vicious machete wound, which laid the President's head open from the back of the skull to the neck. The five assailants had escaped from the Monique Bolivar, where President Araujo was attending a serenade, one of them had struck him from behind, inflicting the machete wound which may cause the executive's death. One of the culprits, Vicente Muiatillo, was captured, but the authorities on the trail of the other four. American Minister Hinke, who reported the details to the State Department to-day, said tranquility prevailed throughout the republic, that the attack was regarded as a day with no other significance than an attempt to remove President Araujo.

Gall Stones Removed Without an Operation

After suffering for one year with gall stones, I was told by a friend to try Swamp-Root. I began with the fifty-cent size, and after using four bottles found that I was much better. Then began using the larger size bottles and after taking three bottles I was cured. That has been seven years ago this summer, and I have never been sick since that time from this disease. I can cheerfully recommend Dr. Kilmer's Swamp-Root to any one for kidney and bladder troubles, hoping it may do as much good for many people as it did for me.

FIGHTING OVER SUBWAYS

Case Will Be Taken Direct to Appellate Division.

New York, February 6.—Friends and enemies of the proposed "dual" subway system argued for more than six hours to-day before Supreme Court Justice Davis, and when evening came arranged to take the case direct to the appellate division so as to expedite a final decision.

The motion at issue to-day was the permanency of a temporary injunction by which the opponents of the present subway contracts seek to restrain the Public Service Commission from putting them into execution. A decision from the higher court is expected within two or three days.

In his argument for a permanent injunction, Clarence J. Shearn declared the present contract would "only squander the city's funds" and cause the people of New York to lose at least \$500,000. Attorneys representing the Public Service Commission and the three railroad companies which seek to unite with the city in the construction of the subway, opposed the injunction. UNION MAY HALT WORK

Disaffection Among Carpenters Employed on Inauguration Grandstands.

Washington, February 6.—Disaffection among union carpenters on the grandstands flanking the court of honor in front of the White House may result in halting the construction of the grandstands, from one of which President Wilson is scheduled to review the inaugural parade. The carpenters will meet to-morrow to discuss their future action. They claim that in violation of union rules they are compelled to work with nonunion labor. The inauguration committee is striving to adjust the matter.

The grand stands which are to seat upwards of 15,000 persons were well under way when officers of the Carpenters' Union are said to have discovered late to-day that the contract for the electrical wiring of the structures had been awarded to a firm that employed union and nonunion men. Immediately a hurried call for a meeting of the union was issued.

Serious labor trouble in the construction of the Court of Honor would greatly embarrass the managers of the inauguration. The "court" is the most important spot along the line of the parade, the stands looking directly toward the White House. Vice-President and his family and immediate attendants, but also the diplomatic corps, government officials and thousands of citizens.
